Are you one of the million in Washington without health insurance coverage?

Washington Health Program
A Basic Health Plan

We can help

If you are a Washington state resident and not eligible for Medicare, you may be eligible for Washington Health.

Washington Health Program
A Basic Health Plan

Washington Health Program

Since 1993, Basic Health has provided affordable coverage. The same people who brought you this lifeline now offer another option—with fewer restrictions, low cost, and just as reliable.

Washington Health means good, reliable basic coverage to keep you healthy and when you are sick or injured, get you back to enjoying your life. It is coverage when you need it and at a cost you won't dread every month. Staying healthy shouldn't be a difficult choice.

What is in it for you?

- Keeping you healthy through free preventive care
- Improving your quality of life by managing chronic disease like diabetes
- Protecting you from the unexpected with urgent care and hospitalization benefits
- Providing you peace of mind with low monthly premiums

Washington Health Program
A Basic Health Plan

Two Types of Coverage

Most people need less than $100,000 in health coverage every year. If you are healthy, active, and looking for basic health services like office visits, x-rays, and prescriptions why pay more for what you don't need?

- Health 75—Is a coverage option which offers $75,000 in annual benefits
- Health 100—Is a coverage option which gives you $100,000 in annual benefits, for those who want just a little more added protection

Both Health 75 and Health 100 offer the same great benefits at one affordable monthly cost.

- **Free preventive care**
- **Office visits as low as $10**
- **Emergency room visits for as little as $100**
- **Annual deductibles as low as $500**
- **Prescription drugs for as little as $10**
